

# LUXURY LIVEABOARD DIVING IN INDONESIA

• **WATER ADVENTURE OCEAN WIDE** •

Luxury means a dive cruise with Water Adventure Ocean Wide (WAOW.) By sailing vessel, visitors can discover the exotic coastlines of Indonesia; from Bali to Wakatobi, experience these magical waters and explore a mythical collection of islands on board an exceptional vessel.

WAOW, based in Bali's Serangan Harbour, was born from a love of the ocean, a particular passion for diving and a desire to introduce the wonders of the Indonesian Archipelago with likeminded explorers.

The "WAOW" is a 58 metre three masted sailing vessel; constructed entirely from iron wood using traditional building methods, it evokes the spirit of the southern seas and encompasses adventure, comfort and quality. The vessel offers nine beautiful cabins for guests, crew accommodation, dive equipment and multi-media equipment. WAOW itineraries on offer visit destinations that are truly out of a dream; since 2012, the WAOW sails to the most popular and beloved destinations in the Indonesian Archipelago, including Komodo, Alor, Ambon, Raja Ampat and Triton Bay.

A dedicated team, led by Michel Devine, are on hand to ensure each guest has the best time possible on board.

## • **DIVING WITH WAOW** •

The WAOW has been designed with the diver in mind. Scuba diving is the principle pastime offered on board, and the vessel is therefore extremely well equipped whilst the professional crew can offer over 30 year's diving experience. WAOW have a range capacity for extended expeditions for the entire Indonesian Archipelago, and can take their guests on adventures to explore destinations as mysterious as they are remote.

Offering modern and well maintained facilities for hassle free diving, WAOW also ensure the safety of their guests; their state of the art yet non-intrusive safety systems provide ample support during remote diving operations and operate multiple dive speed boats from the main ship to ensure small dive groups. The on board crew take care of transport, cleaning and stocking of equipment and, should the guest require, they can clean and stock camera equipment.

In addition to such first class facilities as compressors, scuba tanks and NITROX fills, WAOW also provide a rental service for those who don't want the hassle of travelling with their own space-consuming equipment.

## • *THE DIVE EXPERIENCE* •

To take full advantage of the beautiful dive spots the WAOW can reach, each day guests are invited to join a comprehensive and informative dive briefing. Before taking the water, an underwater map is shown and explained in detail by one of the expert guides on board, whilst specific photos, relating to areas of special interest, will also be displayed. The accuracy and detail of these maps are the result of years of exploration, further highlighting WAOW's commitment to professionalism and the strength of their experience.

**Dive groups** will be separated in the tenders by experience levels and types of dives requested.

On the return to WAOW deck **showers and cleaning** tanks will be available for rinsing off with fresh water.

offer incredible introduction to diving sessions for beginners; those new to the underwater world can also complete their diving certificate after their pool and theory exams.

Those on board the WAOW can guarantee a feeling of total exclusivity.
